

Services to Those with Disabilities

The Cuba Library building is handicap accessible, with a lift going to all three levels. The Village of Cuba also designates one parking space in the front for Handicapped Parking.

The library has an up-to-date collection of large print books, and of audio materials on cassette and CD.

The Library also offers **Homebound Services**. The Library uses volunteers to deliver library materials to adults unable to come to the library themselves. This service is available to individuals who are homebound and live within the Library's service area, an area identical to the Cuba Elementary School area.

Individuals need a Cuba Library card and must follow standard circulation policies.

Individuals may request specific titles or the librarian will select materials for you. The application can be completed in person or over the phone.

Approved by the Cuba Circulating Library Board of Trustees December 10, 2007
