Thoughts From Tina... *By Tina Dalton, Youth Services Librarian*

We held **story hours** in February that focused on kindness, love (Valentine's Day) and Dr. Seuss.

For our kindness storytime, the children painted watercolor hearts which I took to the Office for the Aging to be included with the Meals on Wheels deliveries. I used this activity to talk to the kids about the importance of being kind and doing service for those in our community.

On March 4, we participated in "Take Your Child to the Library Day". This day is an opportunity to

showcase the library and all our great programs to the community. The children had the participated in a scavenger hunt, which challenged them to look for a variety of items around the library—such as "books on medieval history" or "an atlas". Once the kids completed the scavenger hunt, they received a small prize. We also had the 3D printer running, and I printed and gave away several creepers (characters from Minecraft, a video game). This activity generated a lot of interest in the 3D printer, and as a

result we had several more requests for printed projects in the following weeks.

Rachel Bell taught her music class, "Warm songs for cold days" on Feb. 21. This class is always a big hit, and this year was no exception. There was also a reporter present from TAP into Olean (a publication written and run by Bonaventure students). If you're interested, you can read the write up about Rachel's program here: <https://www.tapinto.net/towns/greater-olean/sections/education/articles/rachel-bell-conquers-cabin-fever-with-musical-pic>
